

## Virtual war rooms and multi-vendor collaboration

Kinetic Response is a powerful problem collaboration service that provides access to critical problem information for faster resolution and better decision making.

- Resolve problems faster
- Provide better visibility to all stakeholders
- Improve governance via self-auditing of resolution

- Desktop Web, mobile Web and native mobile clients
- Allow internal and external stakeholders to easily participate in any issue
- Chat, share attachments and monitor progress

- Embed Kinetic Response in existing processes
- Trigger notifications based on events in a Kinetic Response issue
- Utilize full API for managing issues, messages and action items
